# KRAKOW welcome

– a city that enchants far beyond the first visit.  
Krakow, the former capital of Poland, was the seat of kings and the site of royal coronations. It played a key role in Polish history for centuries. Unlike many European cities, Krakow escaped major wartime destruction, so visitors today can walk among genuine medieval and Renaissance buildings, not modern reconstructions.

**From the Main Market Square and Wawel Hill to Kazimierz and Podgórze**, each area has its own stories and secrets. But Krakow is also full of cozy cafés, green parks, art, music, and events all year round. It's a city that offers something special not only to first-time visitors but also to those who return to explore it again and again.
